More about Ontario Health:

Ontario Health is an agency created by the Government of Ontario with a mandate to connect and coordinate Ontario's health care system in ways that have not been done before, to help ensure that Ontarians receive the best possible care.

Ontario Health oversees health care delivery across the province, which includes ensuring front-line providers and other health professionals have the tools and information they need to deliver the best possible care within their communities. This also means simplifying the current system and connecting and coordinating its many complex parts in new and innovative ways. This involves keeping a close eye on how the health system is performing and providing evidence-based standards and improvements to address any gaps.

Ontario Health helps to support significant and important transformation in Ontario's health system, working to ease the transition between points of care for Ontarians and helping to ensure they have access to the care they need. Ontario Health is adapting world-renowned practices from areas such as cancer care and renal care to other parts of the system, including mental health and addictions.

Through integration, coordination, connection, and clinical excellence, Ontario Health is working to reduce strain on the system which will enable investment of more resources on the care Ontarians need, and, most importantly, improve health outcomes and overall wellness for all.

As an operational service agency of the Government of Ontario, Ontario Health is accountable for conducting a fair and transparent process, providing equal treatment to all qualified parties, in selecting a candidate for the above mentioned role.
