### **Overview**

This guide provides instructions on how to enable kiosk mode with automatic printing for Microsoft Edge and Chrome browsers.

- 1. Delete the current ISAAC shortcut for Internet Explorer from the Startup folder.
- 2. Create a new shortcut in the Startup folder for Edge or Chrome.

Internet Explorer is decommissioned and no longer supported by Microsoft; therefore, it is not a secure browser to be used for ISAAC kiosk setup. ISAAC should be run on secure and trusted browsers, such as Chrome or Edge on a Windows operating system.
